

CHEN, Jiazhen (Sunny)

Hong Kong ▪ +852 8491-1182 ▪ sunnyjzchen@gmail.com ▪ linkedin.com/in/jiazhen-sunny-chen

I will help reshape the enterprise AI market. Drawing on frontline sales and AI product development experience, I translate technical capabilities into market value and customer needs into product opportunities, bringing new technology into real businesses and changing how they operate.

EDUCATION

THE UNIVERSITY OF HONG KONG, HKU BUSINESS SCHOOL

Master of Science in Marketing

Award: Dean's Scholarship (Top 1%)

HONG KONG

Sep 2026–May 2027 (Expected)

NANKAI UNIVERSITY, COLLEGE OF CHEMISTRY

Bachelor of Applied Chemistry

Award: University-level Outstanding Graduate (Top 8%)

TIANJIN, CHINA

Sep 2022–Jun 2026

SELECTED PROFESSIONAL EXPERIENCE

JOINQUANT

Institutional Sales and Business Development Intern

BEIJING

Apr–Aug 2026

Developed practical insight into financial markets, wealth management and asset allocation through channel sales, strengthening risk–return analysis, bank and broker engagement, product onboarding and roadshow coordination.

- Coordinated due diligence, head-office review and roadshow arrangements for a major state-owned financial institution, supporting successful product listing.
- Used AI-assisted coding to build a dashboard tracking peer funds by product line, informing channel responses during market movements.

BYTEDANCE

Commercial Product Operations Intern

BEIJING

Oct 2025–Feb 2026

Built on frontline sales experience to understand how customer needs become product capabilities, gaining hands-on experience in AI and SaaS product discovery, testing and iteration, and deepening my understanding of advertising commercialization.

- Benchmarked seven AI products and assessed five industries; designed customer research and screening criteria around business fit, adoption readiness and cooperation.
- Translated customer needs into features and tests for information delivery and conversion guidance; coordinated with product, algorithm, engineering, sales and risk teams.
- Helped define model evaluation across safety, accuracy, conversational quality and sales effectiveness; developed product guides, GTM scripts and a structured platform-feedback process.

TENCENT

Advertising Marketing Management Trainee

BEIJING

May–Sep 2025

Developed an understanding of restaurant advertisers across business sizes and growth stages, connecting digital advertising with physical-store operations while strengthening needs analysis, solution selling and key-account management.

- Developed a brand-plus-auction proposal for Domino's using campaign analysis and category benchmarks, helping increase campaign budget by 20%.
- Explained and coordinated CHAGEE's AI-and-POI targeting trial, selected suitable stores and captured feedback for product adoption and subsequent client discussions.

BAIDU AI CLOUD

Qianfan Growth Operations Intern

BEIJING

Jan–May 2025

Built an understanding of model capabilities, commercialization and enterprise applications, learning to translate technical features into customer value and support product adoption.

- Compared OpenAI, MiniMax and DeepSeek across capabilities, use cases and commercialization; turned model and application-development features into customer-facing content.
- Supported AI Day and developer events; gathered user needs and coordinated product feedback, release communications and sales-enablement materials.

ENTREPRENEURSHIP AND PROJECTS

OXYGEN QINGSHAN

Co-founder, Marketing and Business Development

TIANJIN

Oct 2023–Sep 2026

Developed commercial opportunities for a controlled-release produce-preservation technology.

- Conducted field research across nine locations in seven provinces; designed farm and logistics partnership approaches and helped secure approximately RMB 1 million in bank credit facilities and project funding.

SKILLS AND LANGUAGES

Customer discovery, solution selling, AI Agent evaluation, product operations, GTM, AI-assisted coding, Excel, basic Python; Mandarin (native), English (IELTS 6.0).
