

CHEN, Jiazhen (Sunny)

Hong Kong ▪ +852 8491-1182 ▪ sunnyjzchen@gmail.com ▪ linkedin.com/in/jiazhen-sunny-chen

I will help reshape the financial services landscape. Drawing on institutional distribution and key-account experience, I make investment strategies, value and risk clear to clients, building trust through informed analysis and consistent communication so financial products better serve their needs.

EDUCATION

THE UNIVERSITY OF HONG KONG, HKU BUSINESS SCHOOL

Master of Science in Marketing

Award: Dean's Scholarship (Top 1%)

HONG KONG

Sep 2026–May 2027 (Expected)

NANKAI UNIVERSITY, COLLEGE OF CHEMISTRY

Bachelor of Applied Chemistry

Award: University-level Outstanding Graduate (Top 8%)

TIANJIN, CHINA

Sep 2022–Jun 2026

SELECTED PROFESSIONAL EXPERIENCE

JOINQUANT

Institutional Sales and Business Development Intern

BEIJING

Apr–Aug 2026

Developed practical insight into financial markets, wealth management and asset allocation through channel sales, strengthening risk–return analysis, bank and broker engagement, product onboarding and roadshow coordination.

- Researched institutional channels and followed up on due diligence, approved-list admission, product selection, filing and listing requirements to support new partnerships.
- Independently coordinated a product-listing project with a major state-owned financial institution, managing material submissions, head-office review, approval follow-up and roadshow arrangements; the product was successfully listed.
- Analyzed market conditions and product returns, excess performance and drawdowns; prepared performance updates and investor-education materials to explain strategy characteristics and risks.
- Maintained channel communication and supported roadshow planning, responding to product and market questions and coordinating follow-up with internal teams.
- Built a peer-performance dashboard using AI-assisted coding to compare quantitative product lines and support timely, informed channel responses during market fluctuations.

BYTEDANCE

Commercial Product Operations Intern

BEIJING

Oct 2025–Feb 2026

Built on frontline sales experience to understand how customer needs become product capabilities, gaining hands-on experience in AI and SaaS product discovery, testing and iteration, and deepening my understanding of advertising commercialization.

- Benchmarked seven AI products and assessed five industries; translated customer research into product requirements and testing plans with product, engineering, sales and risk teams.
- Prepared product guides and GTM scripts and established a structured feedback process, building experience in explaining complex products and following issues through to resolution.

TENCENT

Advertising Marketing Management Trainee

BEIJING

May–Sep 2025

Developed an understanding of restaurant advertisers across business sizes and growth stages, connecting digital advertising with physical-store operations while strengthening needs analysis, solution selling and key-account management.

- Analyzed historical campaign performance and category benchmarks for Domino's; proposed a brand-plus-auction strategy that helped increase campaign budget by 20%.
- Adapted proposal materials to the client's internal decision process and supported conversion-attribution integration to improve measurement.
- Coordinated CHAGEE's trial of an AI targeting feature, aligning client needs with internal resources and documenting the case for further customer discussions.

ENTREPRENEURSHIP AND PROJECTS

OXYGEN QINGSHAN

Co-founder, Marketing and Business Development

TIANJIN

Oct 2023–Sep 2026

Led market validation and stakeholder engagement for a produce-preservation venture, connecting technical value with commercial opportunities.

- Conducted field research across nine locations in seven provinces and developed partnership approaches for farms and logistics companies.
- Prepared business plans and pitches for banks, government and industry partners; helped secure approximately RMB 1 million in bank credit facilities and project funding.

SKILLS AND LANGUAGES

Institutional channel development, due-diligence coordination, performance analysis, roadshow support, client communication, Excel, PowerPoint, AI-assisted coding; Mandarin (native), English (IELTS 6.0).
